

BASIC USER

INTRODUCTION TO MODELICA & MODELON IMPACT

Lecture 1.0

Modelon

OVERVIEW

✓ Model Based Systems Engineering (MBSE)

✓ Key features of Modelica

✓ Modelon Impact

✓ Model Libraries

✓ FMI technology

COMPOSING SYSTEM MODELS

Lecture 1.1

Modelon

OVERVIEW

✓ How to launch/access Modelon Impact

✓ UI features of Modelon Impact

✓ Composing a system model

✓ Setting parameters

✓ Getting results

✓ Help and documentation

SIMULATION AND POSTPROCESSING

Lecture 1.2

Modelon

OVERVIEW

✓ Setting up an experiment model

✓ Running multiple experiments

✓ Dynamic Solvers Settings

✓ Results

✓ Stickies and views

A collage of three images: a yellow airplane, a white car, and a solar panel array.

REUSABLE COMPONENTS

Lecture 1.3

Modelon

OVERVIEW

- ✓ Library packages
- ✓ Creating reusable subsystems
- ✓ Connector Interface
- ✓ Parameter Interface
- ✓ Component views
- ✓ Documentation and Icon editor

WORKSPACES AND ARTIFACTS

Lecture 1.4

Modelon

OVERVIEW

Import/Export of workspaces

Import of Modelica libraries

Export of compilation/simulation artifacts

ADVANCED USER

HIERARCHICAL SYSTEM MODELING

Lecture 2.1

Modelon

OVERVIEW

- ✓ Benefits with hierarchical models
- ✓ Library Architecture and Model Structure
- ✓ Browse model hierarchy
- ✓ Parameter propagation and modifiers
- ✓ Reconfigurable models
- ✓ System stickies and views

EQUATION-BASED MODELING

Lecture 2.2

Modelon

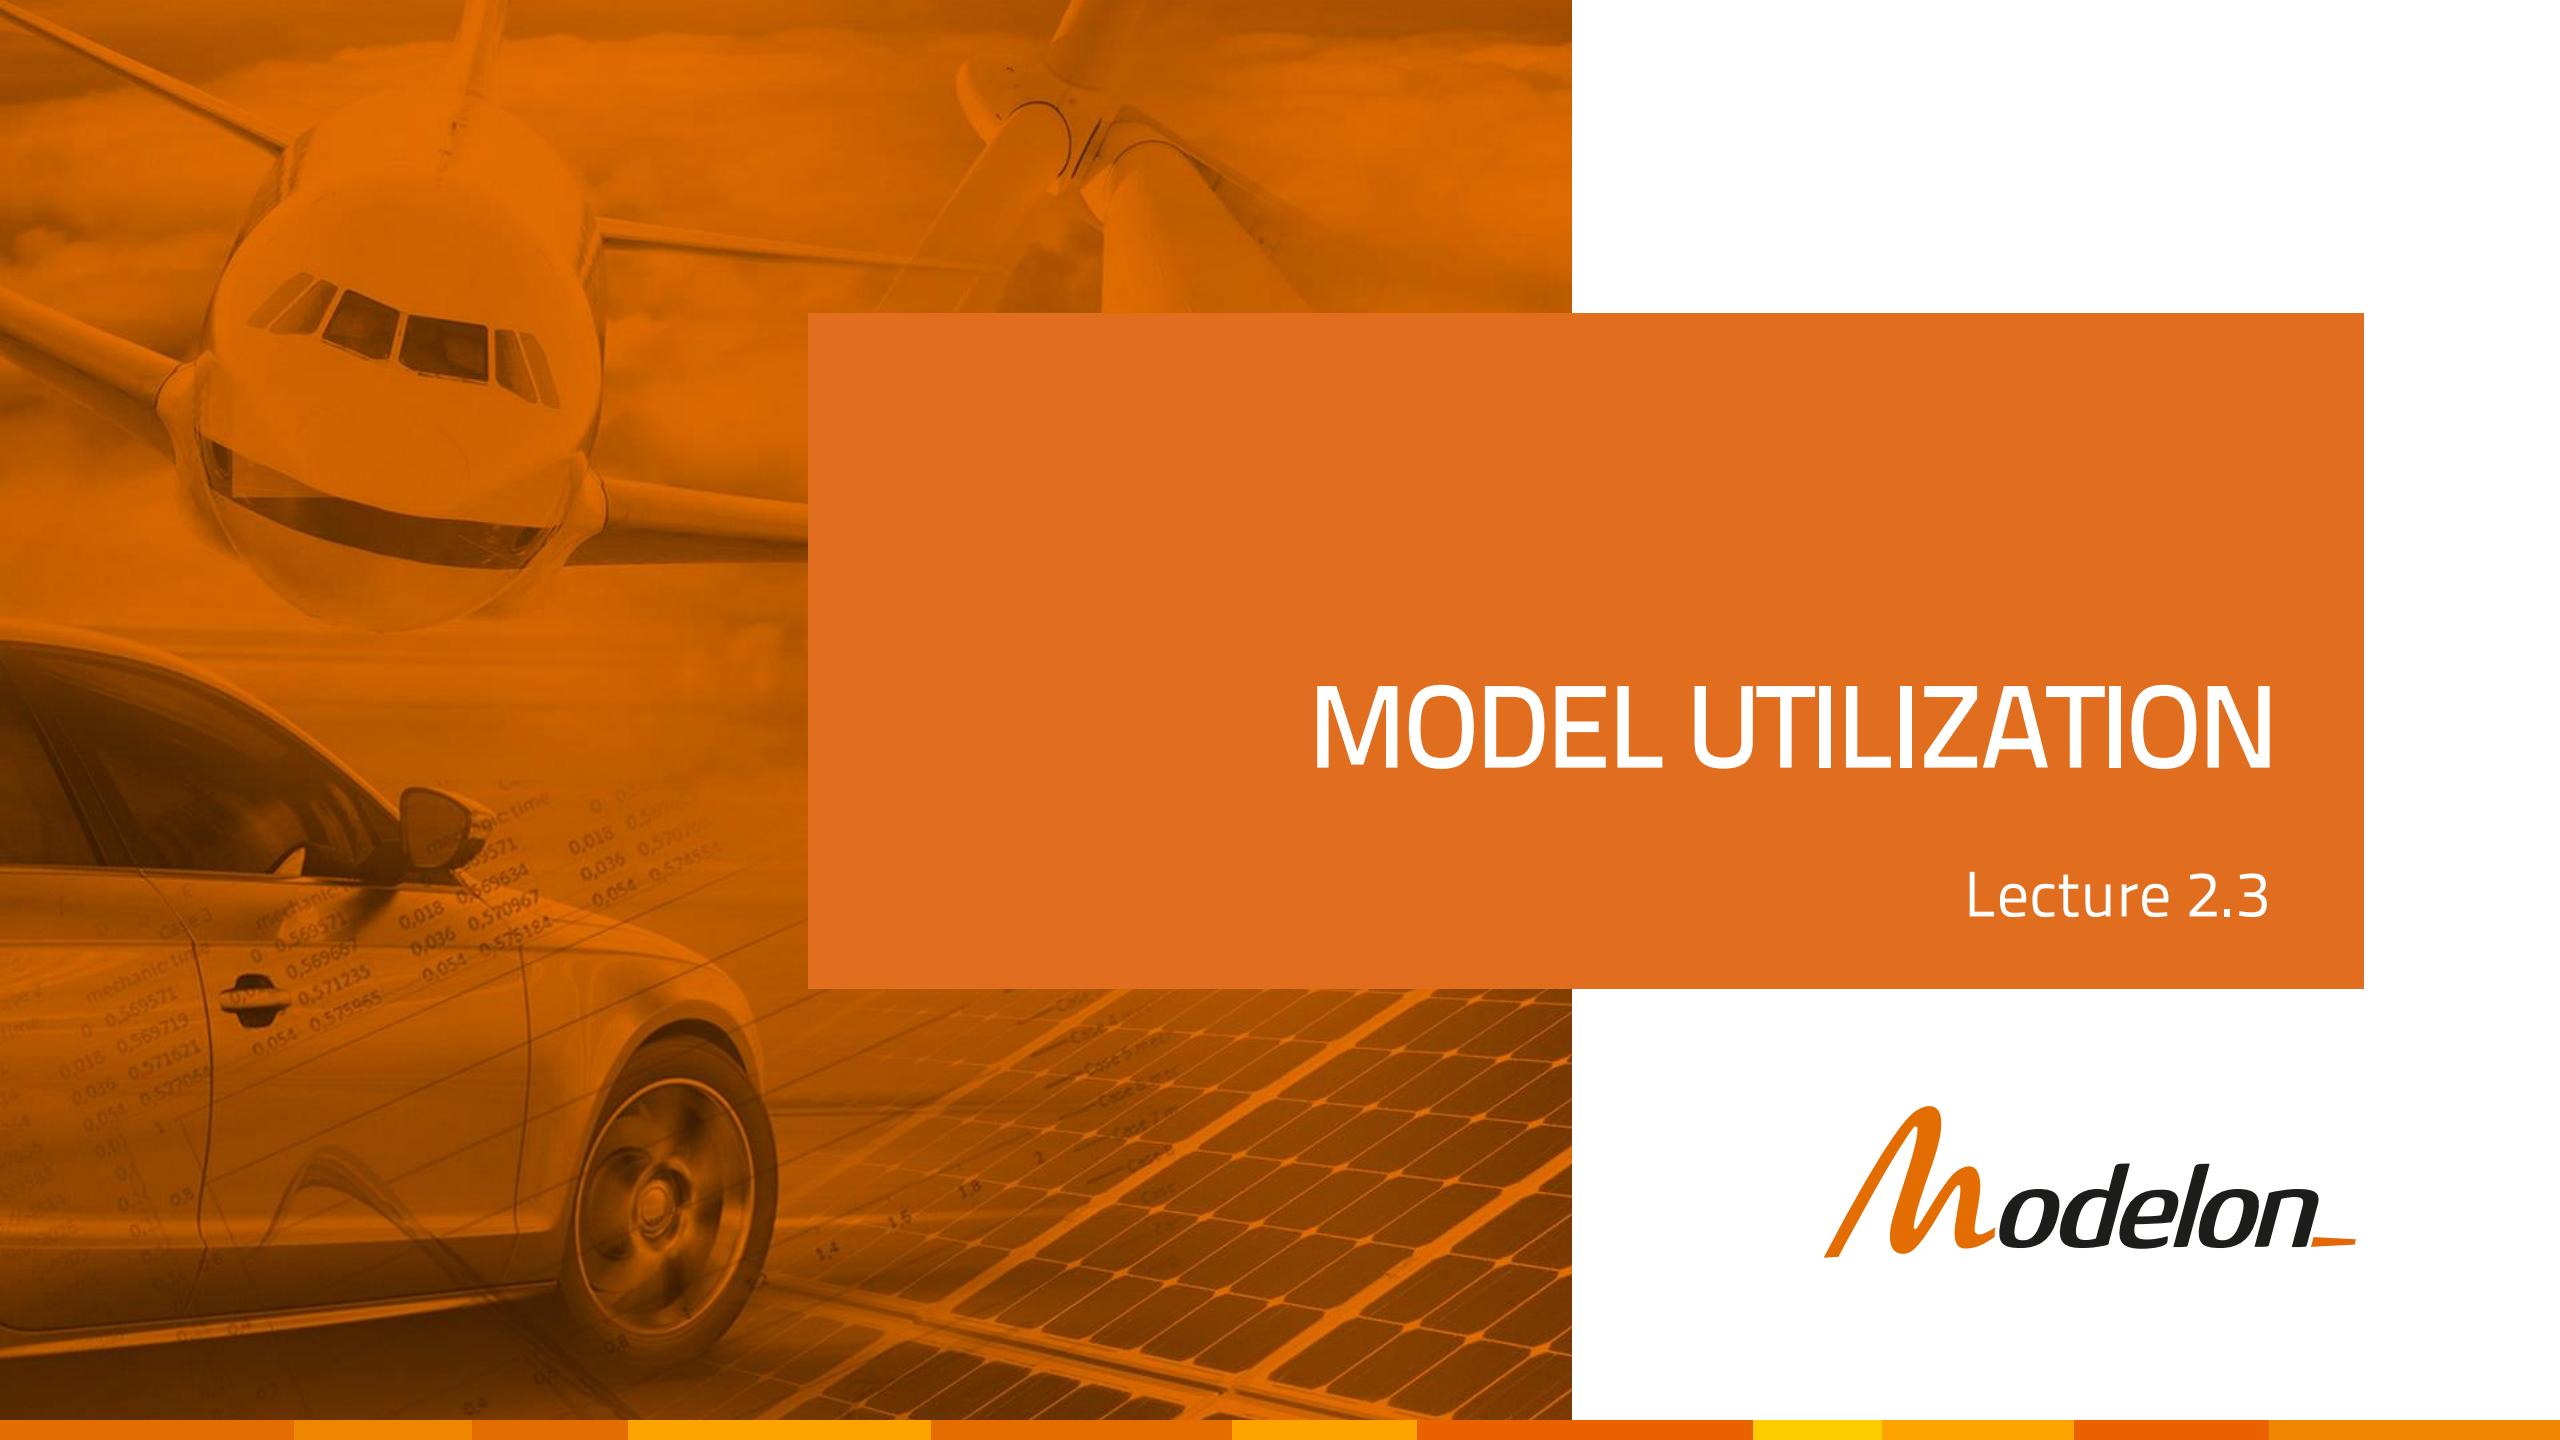

OVERVIEW

✓ Equation-based components

✓ State selection

✓ Initialization

✓ Index reduction

MODEL UTILIZATION

Lecture 2.3

Modelon

OVERVIEW

Types of analyses available

Design of Experiments using Impact

Custom views in Impact

TROUBLESHOOTING

Lecture 2.4

Modelon

OVERVIEW

Development - Best practice

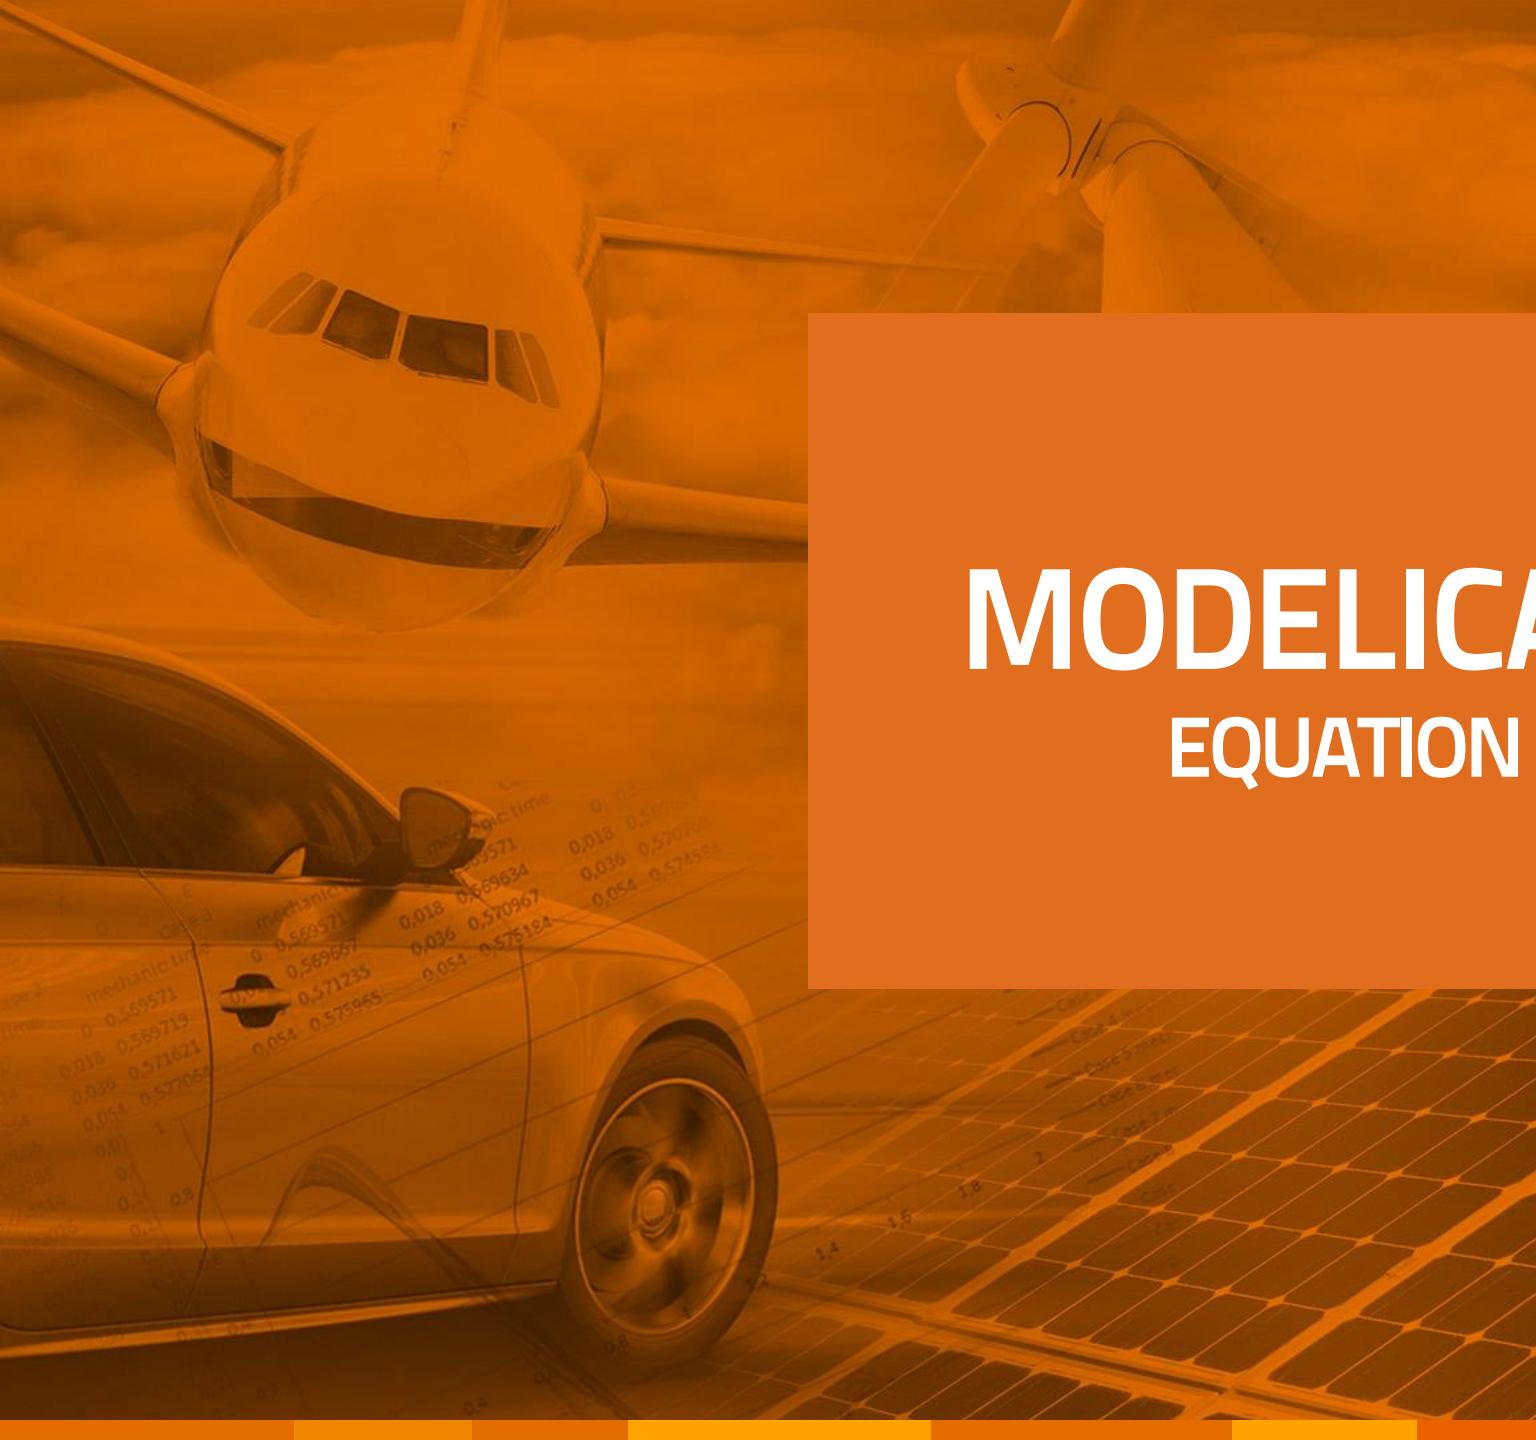

Troubleshooting

Basic Diagnostics

BASIC MODELICA

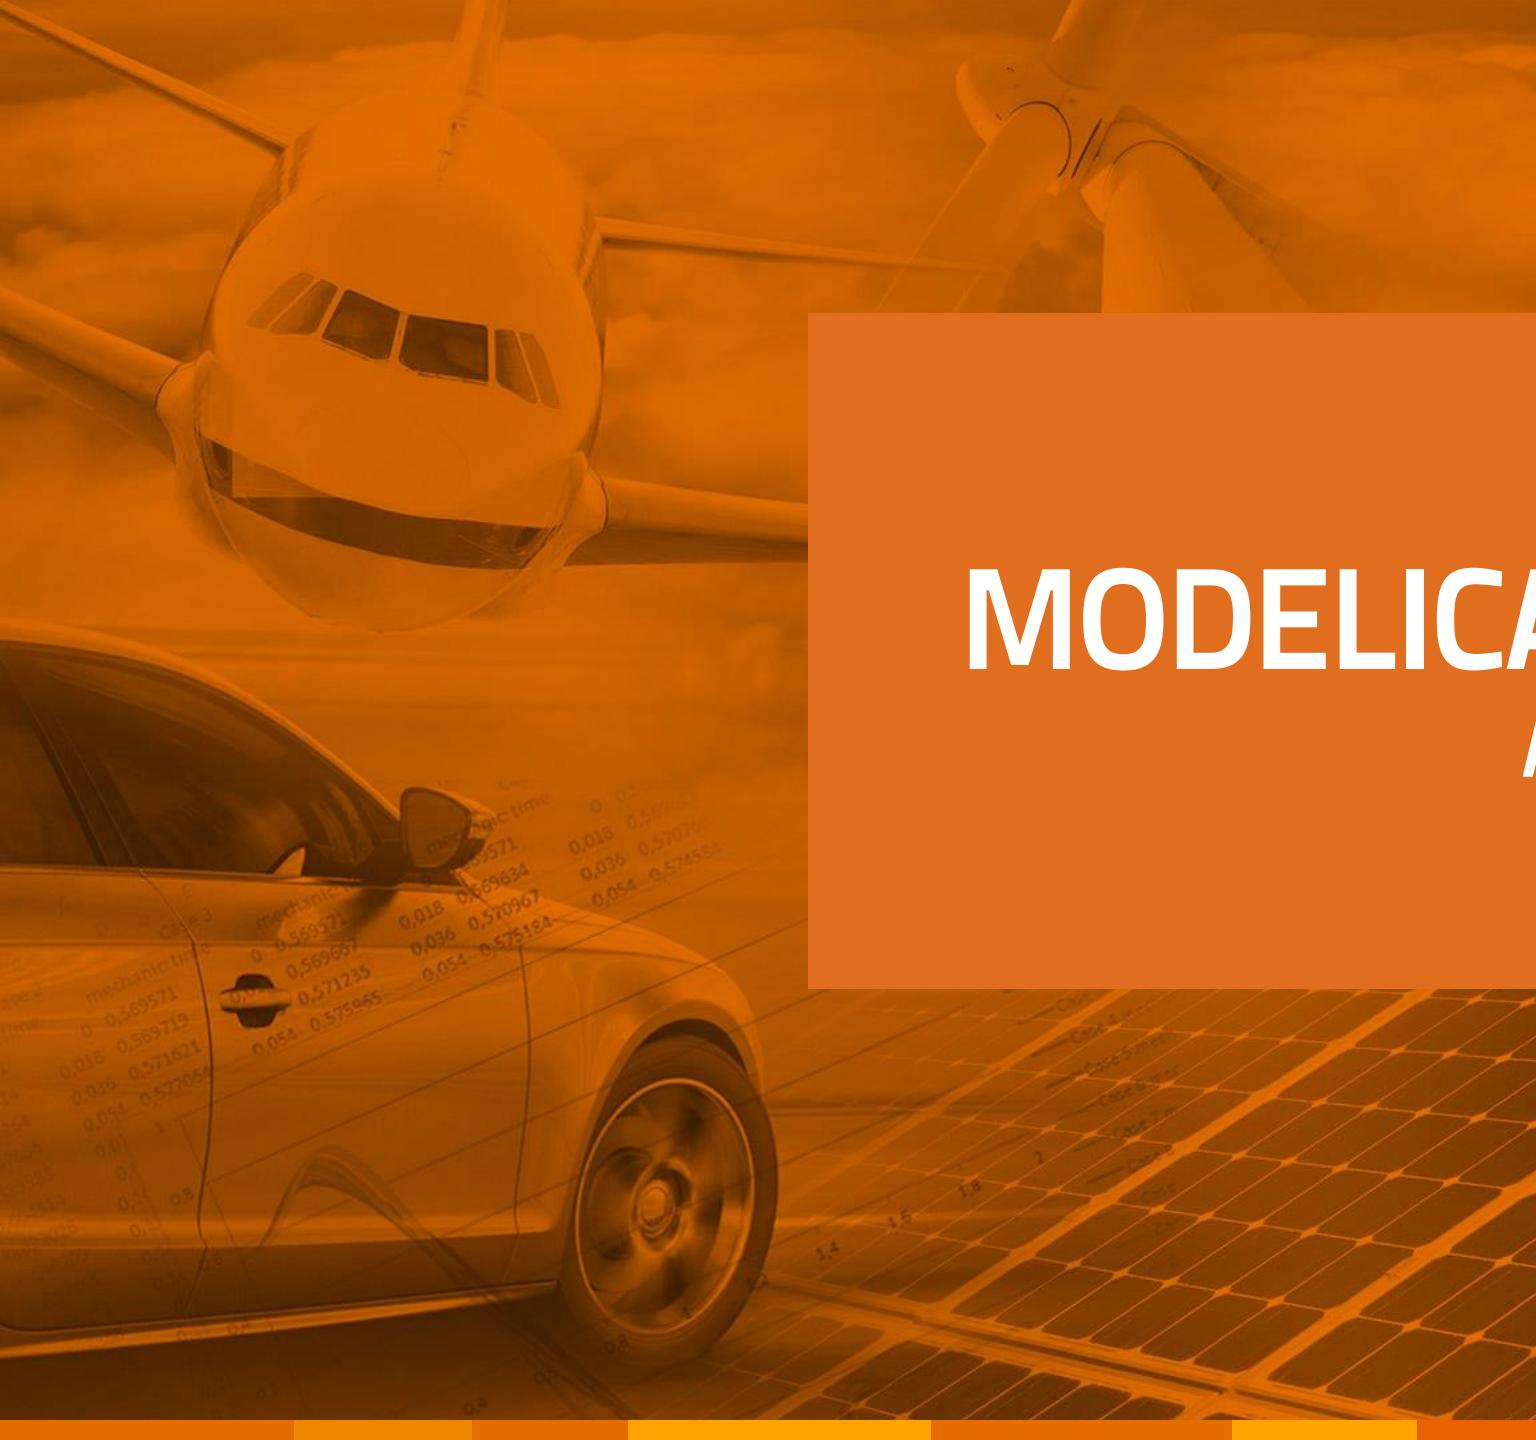

MODELICA LANGUAGE EQUATION BASED COMPONENTS

Lecture 3.1

OVERVIEW

- Modelica class container
- Accessing the source code
- Modelica at a glance
- Variables and types
- Arrays and matrices
- Equation and algorithm
- Operators and statements
- Connectors and connect()
- Balancing concept and partial
- Inheritance v/s Instantiation

MODELICA LANGUAGE ADVANCED FEATURES

Lecture 3.2

OVERVIEW

- Encapsulation
 - Breaking encapsulation
- Advanced connectors
 - Stream connectors
 - Overdetermined connectors
 - Bus connector

A collage of three images: a yellow airplane, a white car, and a solar panel array.

ANNOTATIONS

Lecture 3.3

Modelon

OVERVIEW

- Annotations
- Variables
- Connectors
- Functions
- Documentation
- Icons

FROM MODELICA MODEL TO SIMULATION MODEL

COMPILER AND SOLVER INSIGHTS

Lecture 3.4

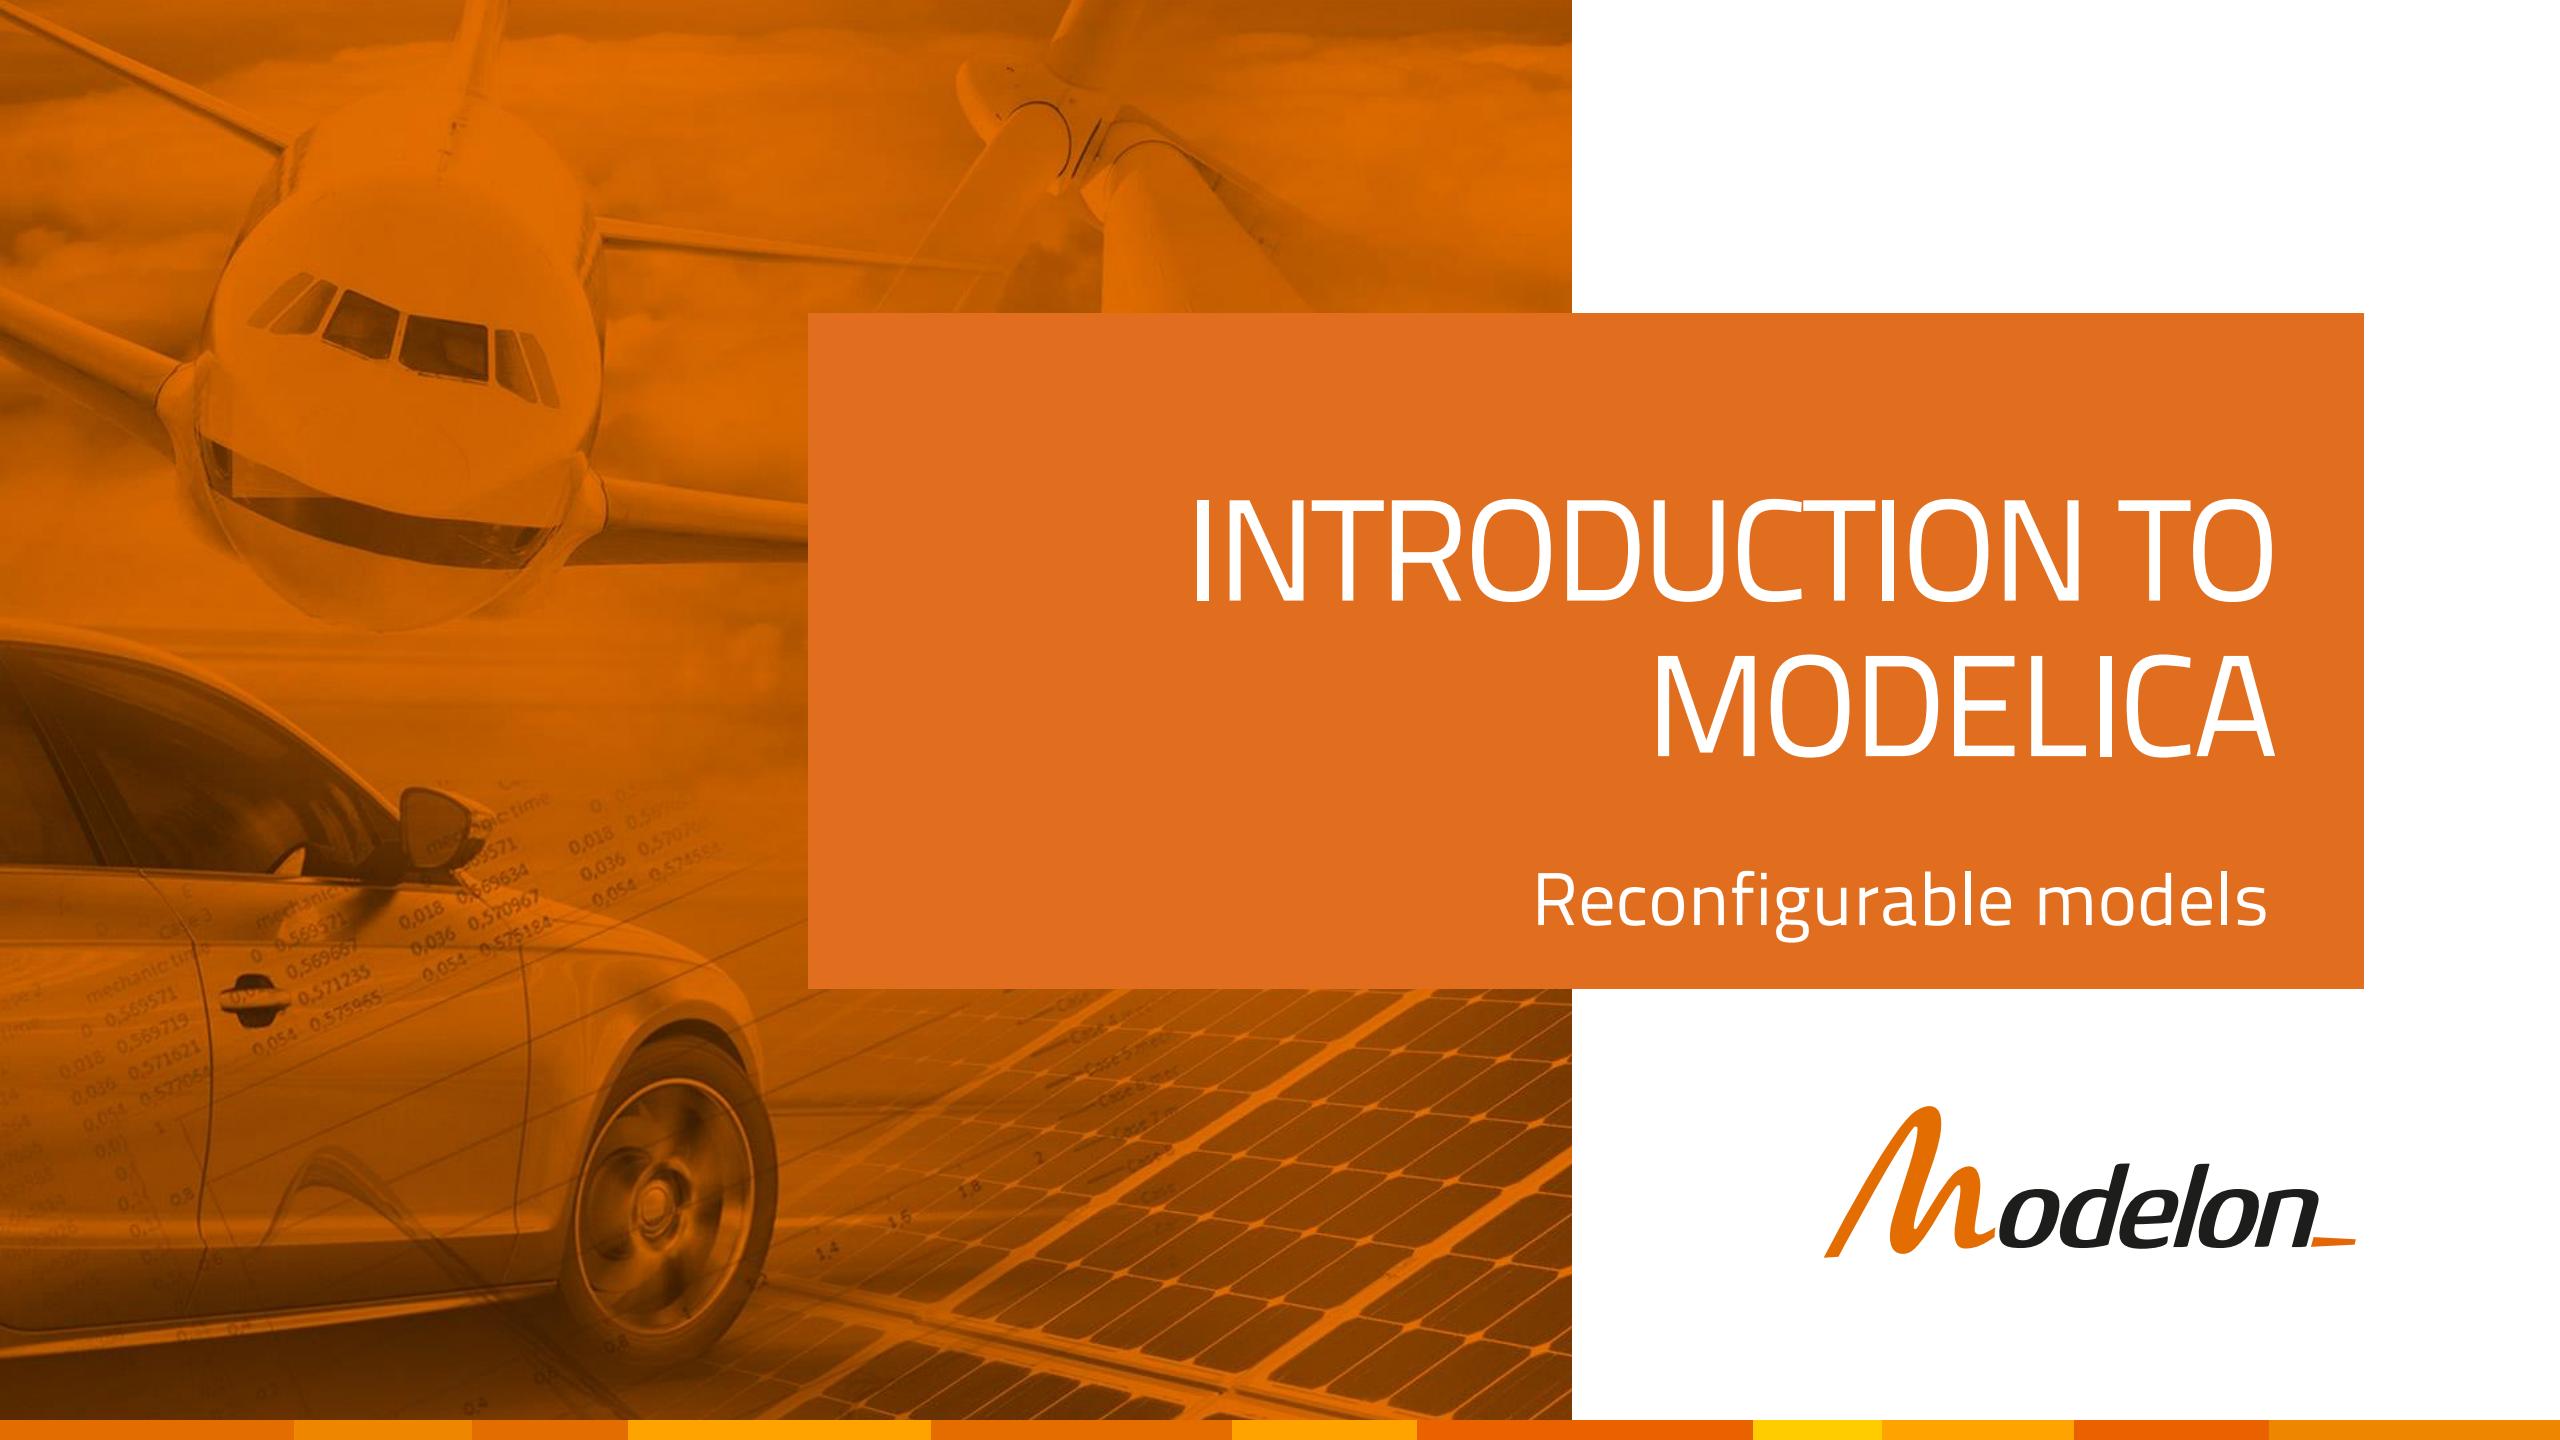

Modelon

FROM MODELICA MODEL TO SIMULATION MODEL

- Process overview
- Modelica model translation
 - Steps toward simulation
 - Flattening
 - From connect to equations
 - Index reduction
 - Causalization and sequencing
- Notes on C/C++ compilers
- Compiled model simulation
 - Dynamic v/s Steady-state
 - Dynamic solvers
 - Steady-state solvers

ADVANCED MODELICA

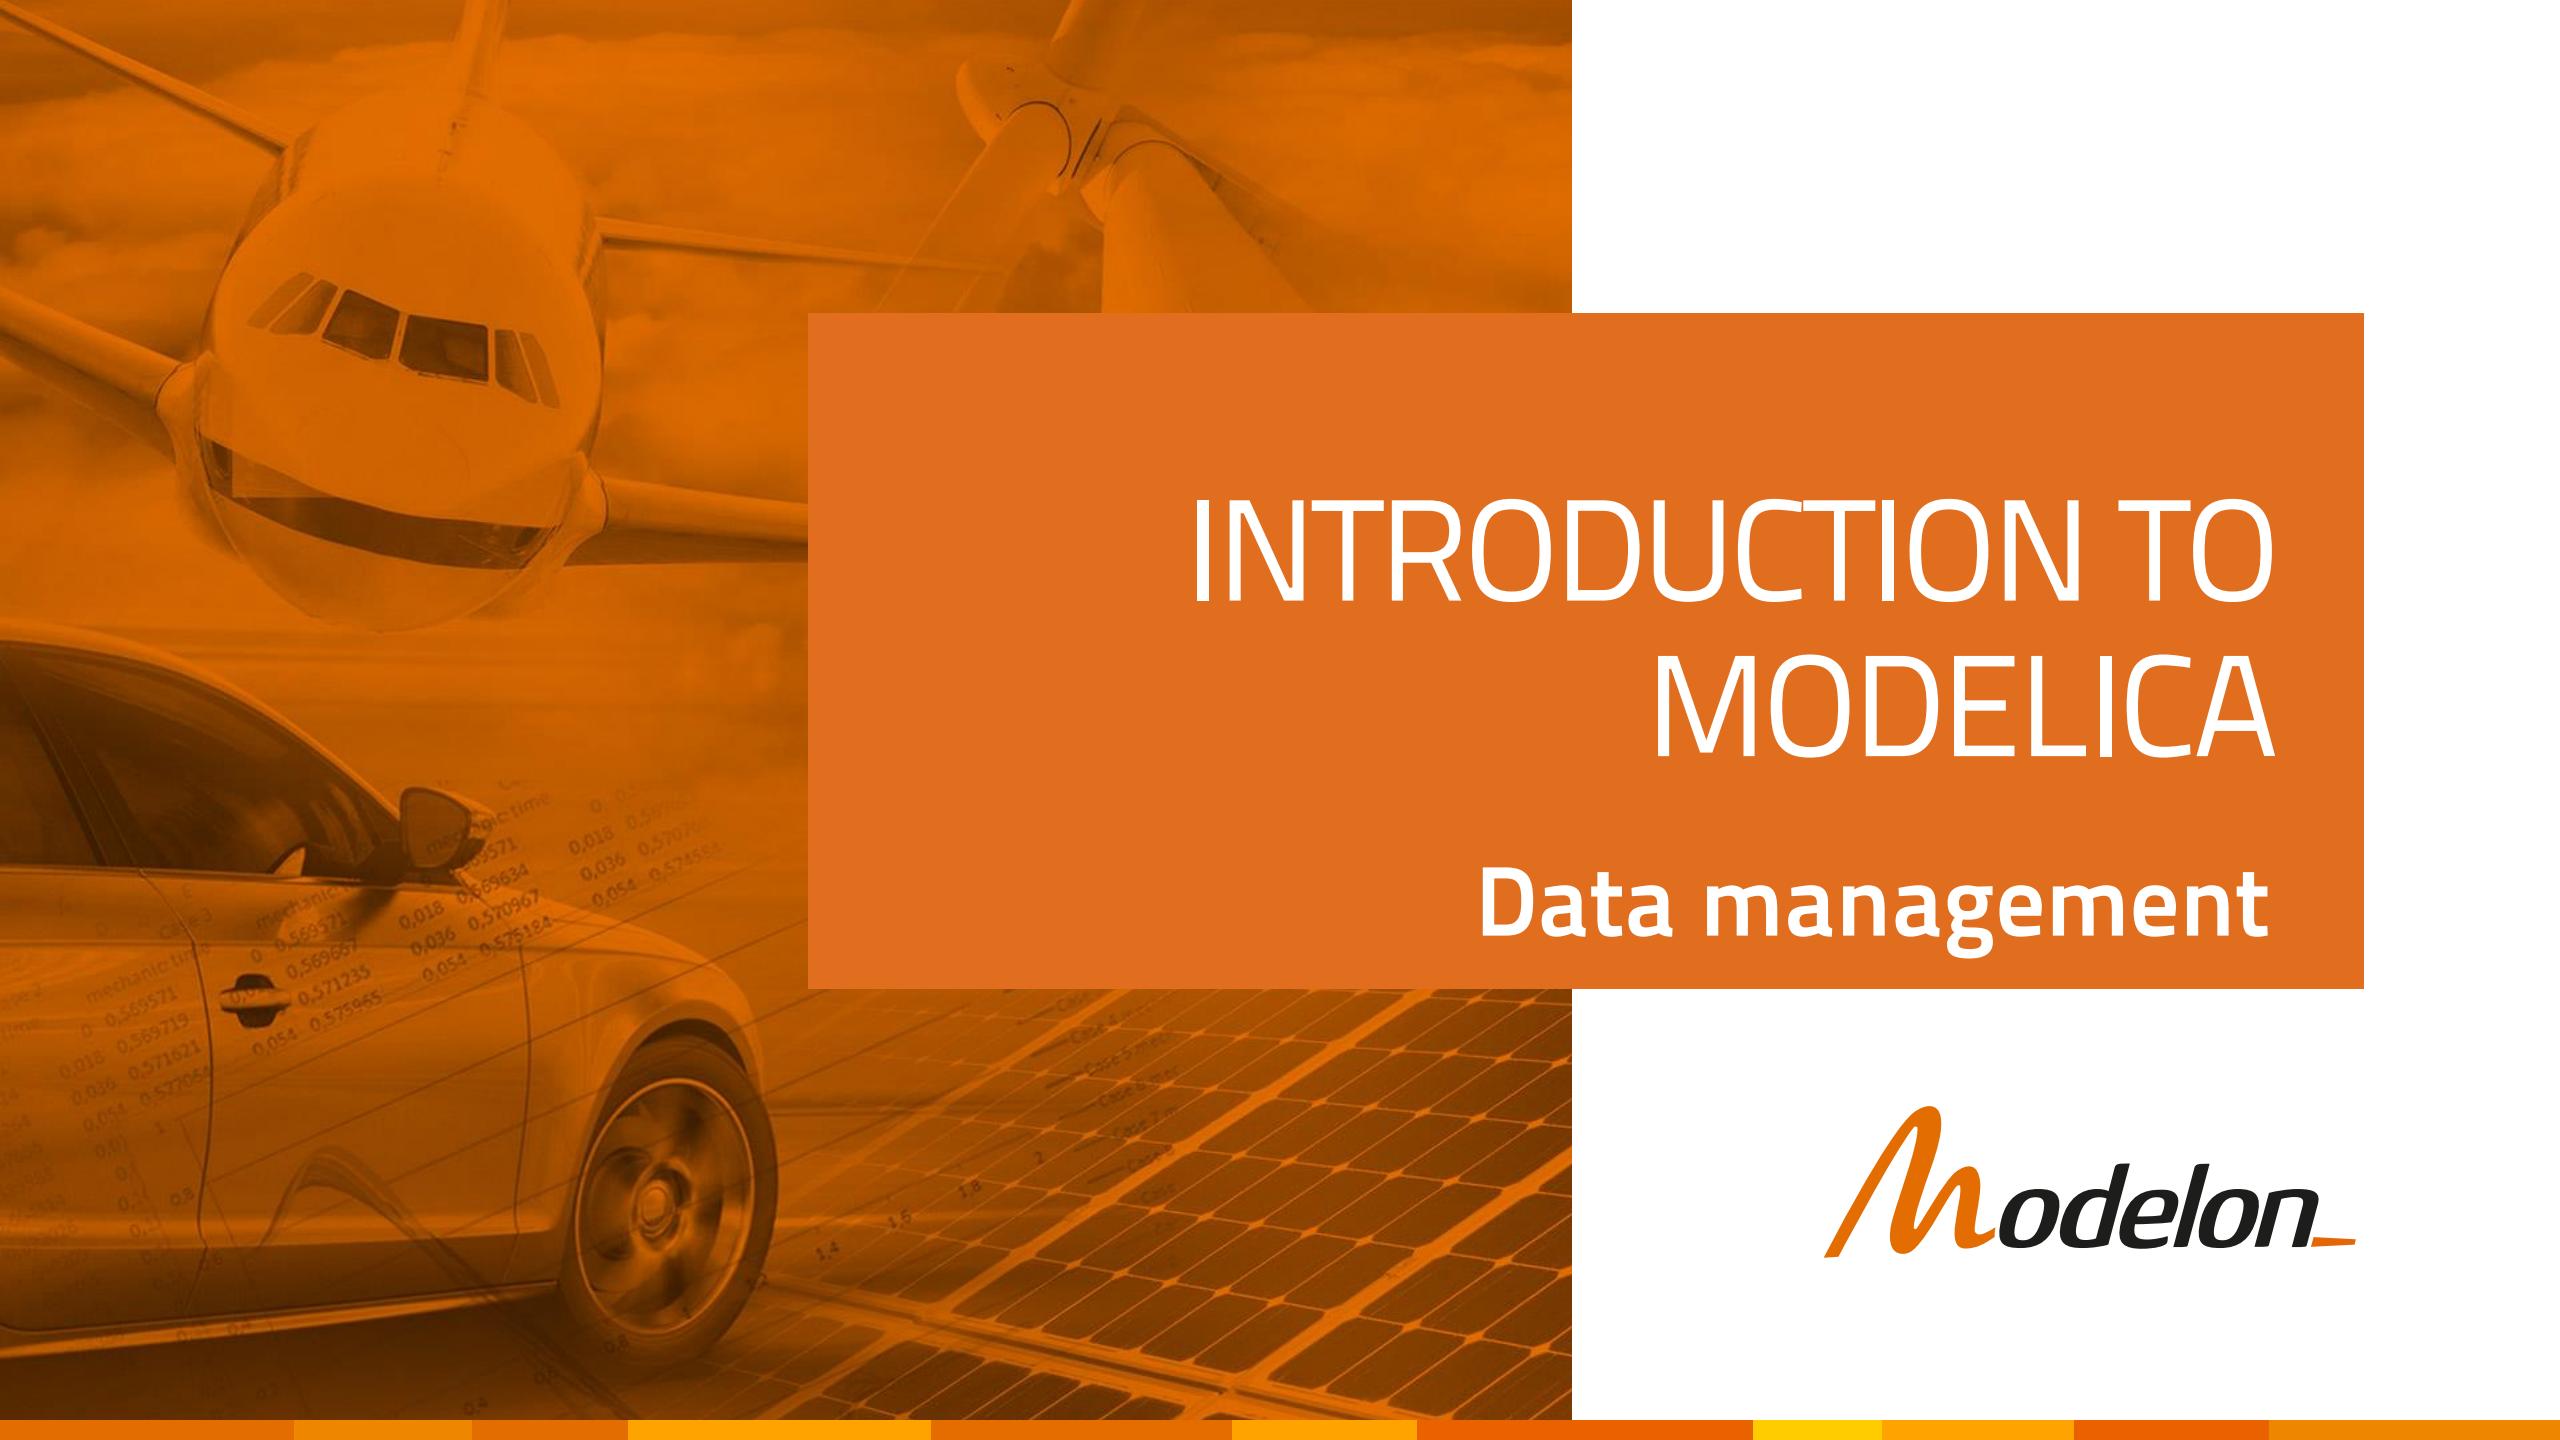

INTRODUCTION TO MODELICA

Reconfigurable models

OVERVIEW

- Creating reconfigurable models
 - Templates and interfaces
 - Conditional components
 - Arrays of components
- Replaceable functions

INTRODUCTION TO MODELICA

Data management

Modelon

OVERVIEW

- Organizing models and data
 - Data records
 - Variant libraries
- Data based components

INTRODUCTION TO MODELICA

Hybrid systems

Modelon

OVERVIEW

- What is a hybrid system?
- What is an event?
- Chattering
- Avoiding events

INTRODUCTION TO MODELICA

External Code

Modelon

OVERVIEW

- External Functions
- External Objects

BASIC WORKFLOWS

PYTHON & JUPYTER INTRODUCTION

Modelon

OVERVIEW

- Python
 - Some Background
 - Basic Operations and data types
 - Tips & Tricks
- Jupyter
 - What is Jupyter?
 - Jupyter Goodies

WORKFLOW AUTOMATION

The Modelon Impact Client library

Modelon

OVERVIEW

- Overview
- Impact architecture
- The Impact execution & storage API
- Modelon Impact Client – Python

FMI INTRODUCTION

INTRODUCTION TO FMI TECHNOLOGY

Introduction and background

OVERVIEW

Introduction and Background to FMI

What Is FMI?

Resources When Using FMI

FMI AND IMPACT

Working with FMI in Modelon Impact

Modelon

OVERVIEW

FMI in Modelon Impact

FMU Export considerations

FMU Import considerations

FMI TOOLBOX

FMI Toolbox for Matlab Introduction

OVERVIEW

Overview

Simulink Interface

MATLAB Interface
